

# Mouse Genetics Core Embryo Rederivation Request Form

PI: \_\_\_\_\_

Strain name: \_\_\_\_\_

Contact person: \_\_\_\_\_

Contact person info:

phone #1: \_\_\_\_\_ phone #2: \_\_\_\_\_

FAX: \_\_\_\_\_ pager/cell: \_\_\_\_\_

Email: \_\_\_\_\_

Date Submitted: \_\_\_\_\_

**SERVICE DESCRIPTION:** Embryos will be thawed and implanted into recipient pseudopregnant females. Females will be housed within the MGC during gestation, and pups will be transferred at weaning. The investigator will provide at least 2 straws or vials (preferably 60-100 embryos).

Contact [Mia Wallace](#) (314) 747-4554 after completing this form. All facility services are performed in the order received and kept confidential.

Please fill out the information on the following pages. If you have any special circumstances or requirements, please contact us to discuss the possibilities.

**ANIMAL STUDIES COMMITTEE APPROVAL NUMBER:** The Mouse Genetics Core has Animal Studies Committee approval for the cryopreservation process. You must provide a separate approval number for your specific project involving cryopreservation.

ASC# \_\_\_\_\_ ExpDate: \_\_\_\_\_ PI \_\_\_\_\_

**DESCRIPTION:** A brief description of the genetics of the strain we are thawing comprehensible to those outside the field, including induced mutations, strain background, phenotype, and mating behavior.

**TRANSFER LOCATION:** List the precise location where animals are to be transferred after weaning:
